

# Safety Officers

The Wisconsin IDPA State Championship is accepting applications for Safety Officers for this year's state match. We understand that Safety Officers are one of the most important parts of successfully running a professional and safe match. We also understand the extra energy and time commitment it takes to be a safety officer at such an event. Safety Officers will shoot the state match COF in a relaxed format with very small squads on Friday evening before the match and then SO the match on Saturday for the rest of the match competitors. We also have openings for 1/2 day SO's who will shoot on the regular match day and work the other half. As a Safety Officer you will receive a reduced entry fee, a special match Safety Officer shirt, and lunches. Friday night a hospitality room will be provided and you'll also be eligible for a special Safety Officer only door prize (A GUN!) We have held 7 successful state matches and it is our sole intent to continue to improve the state match and promote our shooting sport. If you are like-minded and wish to help in the continued growth of our shooting sport, please apply.
